

The primary objective of “We the People” is to provide Owensboro-Daviess County residents with a chance to discuss the issues facing the region and to find agreement about the most important priorities. We respectfully request that all media members and other observers who attend the discussion help to ensure that participants are able to take part in these discussions without disruption by following the following guidelines:

- 1) **Identify Yourself:** If you are observing a small group discussion, please identify yourself clearly as a member of the media or observer.
- 2) **Respect Requests from Table Facilitators:** If a table facilitator asks you to move on to another small group because participants are uncomfortable, please respect this request.
- 3) **Attribution of Participants:** Participants need to be able to feel free to speak honestly and openly in table discussions. Please do not attribute any comments made in table discussions to a specific person without permission from the participant. Please feel free to quote table discussions without any specific attribution.
- 4) **Interviewing Participants:** Please do not take participants away from tables to be interviewed or disrupt table discussions.
